- HTML 5
- CSS
- Sass
- Bootstrap 4
- JavaScript ES6
- JQuery
- Git & GitHub
- PHP Mailer
- API

Experience

-**Web Developer Experience**: 2019-present
Created different projects where the main actions and technologies used were:

- Built fully responsive websites using Media Queries and Bootstrap 4 and tested browser compatibility.
- Added styles with Sass, advanced CSS and BEM methodology.
- Implemented web functionality with JavaScript ES6 and Document Object Model manipulation.
- Validated forms with JQuery or Bootstrap plug-ins.
- Fetched data from an API and displayed it on the website.
- Corrected bugs by using the developer console.
- Used Git main commands for version control.

-International customer service advisor: 2015 - present
E-commerce, Superdry PLC, Cheltenham, United Kingdom

- Collaborated daily with over 75 customers and business partners (Amazon, Zalando and eBay) and reported website errors to the IT department.
